

FIRST UNIT ENGLISH (II) EXAM

STUDENT'S NAME: _____ Cristian Vargas _____ DATE: ____ 15/08/24 ____

PROFESSOR'S NAME: _____ Karina Amador _____ GRADE: _____ GROUP: _____

All the information should be related to the activities you had in the IT course.

1.Fill the next chart with at least two (2) aspects related to the knowledge you gained during the course or the different abilities you got. (10 points)

We explored key features of the DJANGO library, which is essential for building robust and scalable web applications.	I gained an understanding of the critical role databases play in university systems, including how Engineer Aviña carefully designed tables for efficient data analysis.
We learned how probability and statistics are vital for predicting future events, providing facts and numbers to analyze.	We enhanced our programming skills by mastering new libraries and languages.

2. Record a video of at least 2 minutes mentioning your experience of working with the tools of your course. In the same video, show the results of the work you did during the course and explain its features.
